

Using Ericom AccessNow™, SAP Customers Can Now Access SAP® Business One From Anywhere and Any Device

ERICOM MAKES LIFE EASIER FOR SAP® BUSINESS ONE USERS AND ADMINISTRATORS

Empower users with the mobility and flexibility to access SAP Business One (Cloud or on-premise) — from the widest variety of devices, including Windows PCs, Mac, Linux, iPad/iPhone, Android, Google Chromebook, BlackBerry Playbook — even locked down workstations!

Ericom AccessNow is the first high performance HTML5 RDP client for accessing hosted Windows applications and desktops. It runs entirely inside the browser, using only standard web technologies. There's nothing to install on the end user device — all that's needed is an HTML5 compatible browser and an Internet connection.

WHY SAP BUSINESS ONE AND ACCESSNOW COMBINED SOLUTION?

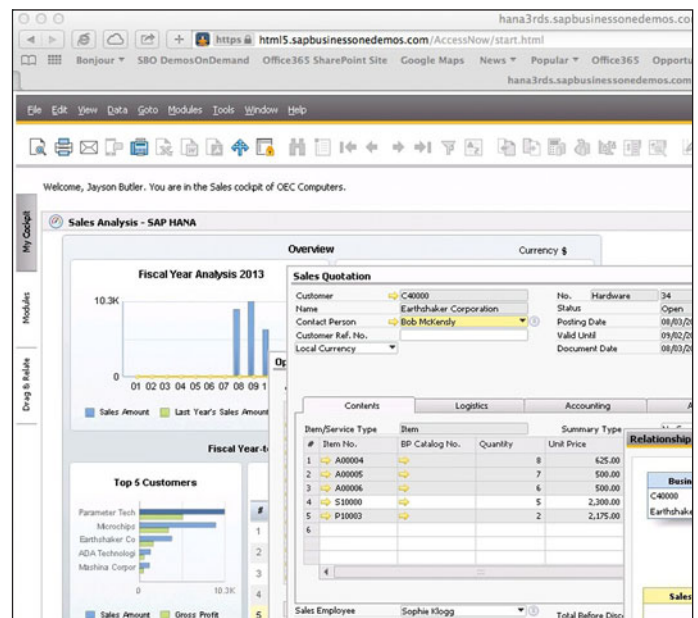

- Gives staff the mobility to access SAP Business One right from the browser, from anywhere (office, factory, on the road or home). Users can access their full SAP Business One system (including all dashboards, customizations and 3rd party add-ins).
- Does not require Java, Flash, Silverlight, ActiveX, or any other underlying technology on the end-user device, significantly reducing IT overhead.

"The great thing about AccessNow is that you don't need to install any software on the client. So I'm able to walk up to any PC or device anywhere in the world, and by simply entering in a URL I have access to SAP Business One...It's quick, it's easy, it's simple and it works."

Richard Duffy, Product Evangelist for SAP Business One

REAL BENEFITS!

- AccessNow is the ideal solution for small and medium enterprises that need to provide access to SAP Business One (Cloud or on-premise), with ZERO client installations.
- Simple, easy and inexpensive to maintain — works through the browser on most devices.
- BYOD Enabler — supports access from any HTML5 compatible browser on any platform, including Android, Chromebook, Windows, Mac, Linux, iPad/iPhone, etc.

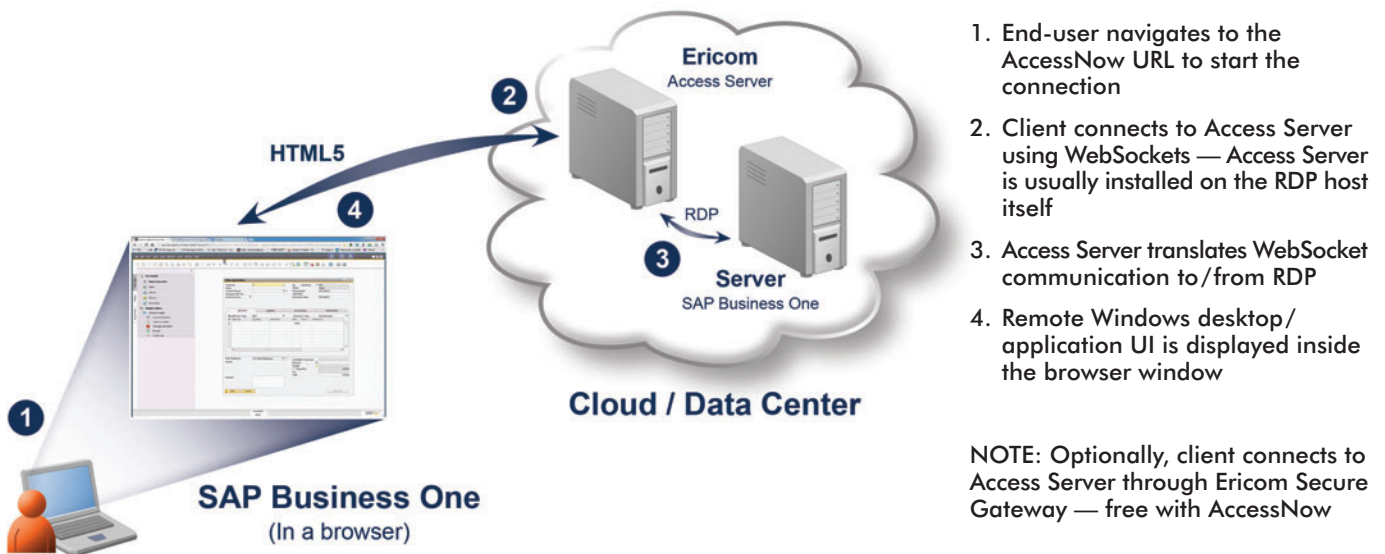

HOW DOES ACCESSNOW FOR SAP BUSINESS ONE WORK?

It's so simple! All you need is a web-browser, and an internet connection.

1. Open the AccessNow Web page
2. Enter your log-in credentials
3. Click 'Connect' — SAP Business One appears directly inside the browser window
4. That's it

Alternatively, Ericom AccessNow can be integrated into the organization's portal. By simply clicking on an icon, the user connects to their Windows apps or desktop.
